

George & Mavis are originally from the North of England from a farming background and immigrated in 1968 to New Zealand to farm sheep & cattle and lived there for 11 years before coming to Australia in 1979. They now live in Bathurst NSW. They have always been in business for themselves either farming with livestock or selling agricultural products which they were doing when ACN came into their lives.

They were introduced to ACN by a friend and were very excited about the prospect of being paid residual income every time other people made a phone call and signed up straight away for one reason only, they didn't want to miss out on the opportunity just in case it did work.

Because they had been in another product based networking business before, they knew that networking worked but with ACN there was one big difference there was no product to sell and everybody has a phone service and you don't have to persuade people to make a phone call. They have had more success in ACN in 1 year than they had in 14 years in their other network business.

The main difference between ACN and their previous agriculture business career is that everything they have done in the past has been high risk and cost a lot of capital, especially having to conduct all their own marketing and advertising and having to think of new ways to market their product. With ACN this is all done for you and you don't have to rely on the weather as you do in an agricultural business.

ACN has also helped supplement their agricultural business which has suffered as a result of the worst drought in 100 years

George & Mavis reached the Team Coordinator position in 10 months and are consistently one of the top producers. They attribute their success to attending all the training events and following the proven system for success. Early in their ACN career they invested in a trip to attend an International Training Event in Dallas Texas and also to the training event in Anaheim in 2005. It was at these trainings that they discovered the best way to build this business is to attend all the trainings. Everybody wins in ACN if they attend the trainings, put in consistent effort, follow the system and become 100% coachable.

They now look forward to receiving residual income month after month, year after year for a once-off effort and helping their team to achieve the success that they are enjoying.

Their advice is to put every spare moment into building your team and make this the biggest fight of your life. ACN is the best opportunity out there. Just have the vision to know where you are going, why you are doing this and through the power of duplication you can change the lives of hundreds and thousands of people throughout the world.
