

My teenage life started when I married at the young age of 16 and now have 3 beautiful children a son aged 20 and 2 girls 17 and 11. My husband John and I bought a family business 250km east of Adelaide SA in a country town of Renmark on the Sturt Hwy. We bought an old Beaufort tyre place that was closed down and we rebuilt and renovated it into a roadhouse. We worked extremely hard to get it up and running and it cost us hundreds and thousands of dollars not knowing if we were going to have a return in the long term but just went with faith and belief. Because of our hard work ethic and trading 7 days a week we finally had the business up and running. We owed a huge debt to the bank that would take us 10-12 yrs before we really saw any real return. We owned and operated that business for 15 years.

We then moved to Adelaide 8 yrs ago and started our own Mortgage Broking Finance business with no experience in this field at all. We grew a huge customer base and very successful business.

The Finance business was something that my husband wanted but not something that I wanted but didn't know what else to do. I have always been self-employed and tried working a job but it didn't work as I'm not use to someone telling me what to do.

In early August of 2006 I booked my car in for a service and Raff my service department manager asked if he could come around home to see me thinking that he needed finance. I asked him to bring his pay slips and other documents that he would need for a loan. He laughed at me and said I need to see you for something else. I said what is it but he wouldn't say. I then told him not to bother me if he wouldn't tell me but to his credit he hand me the Donald Trump DVD. I took it to my office and didn't watch it until 4 days later when it finally got the better of me. I put it on and something went off in my head. I started thinking out side the square, I was thinking about my data base and financial freedom. On the same day I tried talking to my husband about what I saw and he told me that it's all rubbish just like all the other MLM business's we had tried. I tried to explain it to him but he wouldn't have a bar of it, he told don't you dare start another business as we have a business and don't lose focus. However something inside me told me to keep going so I signed up and told Raff not to say anything to my husband but he checked the bank account and saw that I had taken money out. Oh' Boy that's when the fun started he was negative and wanted me to cancel my membership and get a refund. I told him NO way. I rang my sponsor and asked him to show me how to get started with the ACN BUSINESS because my husband wouldn't stop nagging me for a week; I told him within a week I will have the money back into the account. In the 2nd week I achieved ETT the first level of make money and by the 3rd week I had \$750 go into our account. I then handed the money back to him and he said you can have it and laughed. I could of killed him as he gave me grief for a couple of weeks, by the following week I had another \$1000 go into my bank account and my husband started to get belief asking me questions on how it works. Within 5 weeks I had reached ETL and weekly I had money going into my account. I LOVE THIS BUSINESS

Within three and a half months I reached the TC (Team Coordinator) level just by setting a goal and going for it. Don't let anyone stand in your way. Believe in your own ability and you will achieve your DREAM'S & GOALS like I have. I will never look back and there is only one way and that is to the TOP... (SVP)

Thanks to Matt Rasmussen and the Co-founders for having the best leadership training call program. In such a short space of time I have become a stronger person on the inside and also learnt to stand up and take control as a leader. I enjoy working with my team and training and teaching my group how to build their ACN business. My dream is to build a HUGE International team and help them grow and develop the success they aspire to for their financial freedom.

I strongly believe with ACN's compensation plan this is the best vehicle that can truly give me and my family the choices, freedom and time we have only ever dreamt of.
