

Hello, my name is Eugene Piccinotti.

A little over 2 years ago I received an email that has literally changed the way I look at my future. In that email it said that I could get paid every time someone made fixed line or mobile phone calls.

I was skeptical at first. After all, is it really possible to get paid on people's phone calls? I am here to tell you that not only is it possible to get paid on these bills, but I am now getting paid on over \$1.2 million AUD per month of public utility usage and have over 2000 representatives in my team. Every time over 10,000 customers pay their phone bills I get paid.

What is even more amazing is that I did this part time while still running my already successful personal development business.

I am proud to be able to say that I am part of the most successful team for ACN in the world with many of my representatives qualified to earn bonuses of \$20,000 dollars a month

The reason I was able to accomplish these results is because I was taught a very simple and duplicatable system by Mr. Matt Rasmussen. I believe that literally anyone can achieve the same results with this proven system. What I like about this business is that you are in business for yourself but not by yourself. You can feel free to discuss these results with me by calling 0412 384 363. Best of luck.

Sincerely  
Eugene Piccinotti
