

When I saw this business for the first time it was like a light bulb went off in my head. I have worked so hard for so long. I was so excited about finally having fun with my children and being there with my children instead of working so hard.

I have been looking for the vehicle for a long time. 16 years ago I was in a women's refuge and had nothing to my name, my 3 beautiful children have always been my biggest why and I have always worked hard to give them the good life that they deserve.

There have been times over the last years it was so hard and money was short and I really struggled on my own. My driving force was thinking that just because I am a single mum my children will not go without. I have worked in so many jobs over the years. For the last 4 years I have been a mortgage broker, a highly paid but a very stressful job, and the hours are long.

I DECIDED FROM DAY ONE TO GO ALL OUT TO GET TO TC ASAP. In 14 days I hit ETT and I became an ETL in less than 6 weeks. I have a teams all over Australia and NZ.

Since I have been in ACN I have had the best time of my life. Helping others to make money and head towards their dreams. For the last 10 years I SET A GOAL by the time I am 40 I will be travelling the world wearing a business suit and now here I am going to Poland in January. I have also dreamt of travelling the world with my children and going to Disneyland well now its all going to happen. It was 7 months to the day from joining to get to TC. The help and support from the leaders made it happen. (I am getting emotional writing this, as I have made it)
I love this business.

It is awesome because I am now working with my Mum, Dad, son, 3 brothers, sister her husband and my cousin and other relatives as well. I am not only helping people to make money but this business is about personal development. I have people in my team that have transformed with all the coaching and help we given them. I have met some people I consider to be my best friends. I am working with people, who like myself, are positive and want more from life. I am living my destiny.

I have a huge passion to help to mentor women to be the best they can be for their children. And it is awesome to know I am now doing that with ACN. I also volunteer with The Salvation Army raising funds through a CD I wrote and recorded, I want to encourage women that they can have a great life. I have many single mothers on my team it is awesome. From the day I joined ACN I focused on TC next stop RVP. Wow my whole family will travel and have fun together. My daughter was running around the house so happy the day I made TC. My children love ACN.
